

# RGB Controller LT-3900-350

## Platinum Series-Multi function LED Controller

Platinum series LED controller is a universal RGB controller for entire color changing, which adopted the most advanced PWM (Pulse-Width Modulation) controlling technology at present. PC engineering plastic panel with T-Touch/soft-touch function button and exquisite appearance. Widely controlled for RGB full color LED module, LED strip, LED SMD tape and all resistance of the current limit LED lighting products.

### Performance Features

- 1、 Automatically adapt to LED light which works from DC5V-24V or DC12V-24V.
- 2、 4096 levels of grey scale per RGB, even & smooth for color gradual changes, without any flashes.
- 3、 16/32 fantastic modes such as color smooth , color skipping, horserace, strobe, etc.
- 4、 Can stop at static single color, speed & brightness adjustable at pause status.
- 5、 Working with power repeater to expand power output unlimitedly.

### Product parameter

LT-3900-350	
Input voltage	DC12V~DC48V
Output voltage	DC3V~DC42V
Max current load	CC 350mA/CH×3
Output power	1.05W~14.7W ×3CH Max 44.1W
Control button	8 Touch buttons
Function Mode	32 modes
Remote control distance	IR distance: 10m
working temperature	-30°C~55°C
Dimension	L211×W40×H30(mm)
Package Size	L213×W61×H38(mm)
Weight (G.W)	220g
