(We have more models for option, for more details, please find [web at www.senslights.com](http://www.senslights.com))

Solar Fan Product Range

The advantages of solar fan

Stay Cooler in the Summer

Vents your Attic:

Removes damaging heat and moisture by keeping your attic up to 15 degrees cooler in the summer.

Energy Savings:

Ventilates up to 1800 sq. feet with no electricity expense. Lightens the load on your air conditioner.

Quiet Operation:

High-quality solar cells begin working at dawn to prevent heat build-up and runs until dusk without harmonic noise.

Protect your home in the winter

Maintains attic temperature:

Helps maintain consistent attic temperature to help prevent ice dams.

Eliminates moisture:

Removes moisture build up that can affect insulation performance and lead to mold and mildew problems.

Protection:

Hurricane rated to 140 mph wind and driving rain. Will not leak from melting snow.

Solar Ventilation Fan

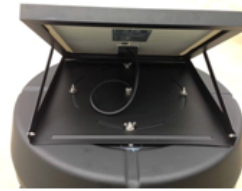

Product Description

Main Components / Specifications

Steel Fan cover (thickness 1.0mm, 580x580mm)

Steel basement (thickness 1.5mm, 620x620mm).

Steel exhaust port (diameter 310mm),

All above are heavy duty powder coated finished, non-corrosive; and no seams connected, to prevent from leaking; reliable for outdoor use.

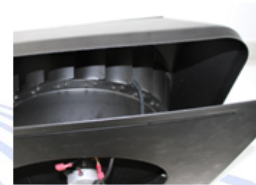

Protective Animal Screen: the stainless steel wire screen mesh is fixed directly onto motor mounting brackets, can prevent fan blades getting damaged / animals going inside the house, and in the mean time to keep the air flow freely.

High impact resistance Polycrystalline solar panel: 20wp (other options 10Wp, 15Wp, 20Wp, 25Wp) . Service life 25 Years, warranty 15 Years.

Adjustable bracket, solar panel can be adjusted vertically at 4 angles, that is 0° , 15° ,30° & 45° , to capture most direct sunlight and to work most efficiently.

Motor: Japanese designed brushless DC motor, well balanced, low vibration and quiet, neighborhood friendly. Furthermore, motor in isolated bracket structure, to ensure smooth and low noise operation. Every motor pass the motor winding test strictly, to keep the high consistency and reliability.

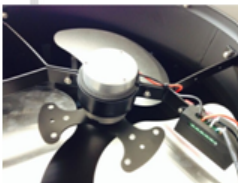

Fan Blade: 12"(30cm) diameter, 5-blade, with balanced hub, light weight and long lifespan. The precisely balanced Nylon blade can resist to all kinds of bad and severe weathers.

Optional Accessories:

Solar Battery System: In cloudy/rainy day or after sunset, it will switch to backup power supply automatically. The solar attic fan continues to work making your attic temperature fall, so it will clean the stagnant air in your house to build a cool and refreshing summer night. The professional solar attic fan can continue to run at night.

Dual Power AC/DC Adapter kit: In cloudy day or after sunset, it will switch to AC power supply automatically. So the exhausted fan can work properly.

Metal Fan Guard: To prevent flying objects go inside the house through ventilator.

Power Cord with Switch: To manual control solar fan works or stop at any time, 2 m cable include.

Snap-Action Thermostat: If 25°C, turn on 25°C±3°C, turn off 18°C±5°C

Service

Samples will be send out within 20 working days. Bulk order will be confirmed according the quantity.

Shipment: According to your quantity to ship by sea/by air/by express.

OEM and ODM order are accepted, any kind of logo printing or design are available.

Hood Quality + Quickly Response + Reliable Service for you.

Lifespan & Warranty

Metal Casing: service life 20 Years, warranty 15 Years

Solar Panel: service life 25 Years, warranty 15 Years

Battery: service life 5 Years, warranty 2 Years

Brush DC Motor: service life 20000 Hours, warranty 2 Years

Brushless DC Motor: service life 6-7 Years, warranty 5 Years

OEM , ODM are all available .

Our technology allows us to pass benefits to you

We are proud to invest in the most qualified personnel who are sure of delivering the most innovative technologies. Technology should be used to achieve our success; our products are our ambassadors all over the world. The cutting edge technology helps us to manufacture quality equipment's at lower costs. The lower running costs are passed on to the consumers that translate to lower prices. We have OEM projects so our projects originality should never be in question. Our quality systems also ensure that we deliver products that are safe for use by the end consumer.

Your success is our success

We are sure that our success lies in the hands of our customers. So as we struggle to succeed, we make sure you have already succeeded. We strive to differentiate ourselves from other players in the industry by being as original as possible. Let our products speak more about us.
