SOLAR FOCUS LIGHT

no wiring no electricity!

Technology Parameters :

Solar Panel : 3W 5.5V 17% efficiency ,
Battery : 3.7v 3000mAh li-ion battery ,
Charging time:6-8hrs (1000w/m²)

Light Source :SensLights, LEDs 4.8w, SMT 2835
Color Temperature : 6000-6500K ,480 ~500 Lum

Contoller:.Anti-over discharge ,
anti-over charge , anti-short current
Protect Level: IP65

Induction Angle and Distance : 120 Degree ,
Recommended Installation Height: 2-4M

Work Temperature: -20°C-65°C

Working time : Light control automatic. Auto On at night and off daytime for charging. PIR motion sensor for energy saving , people come closer , high light for 30s , no motion keep dim 10% until dawn . Keep work 3-5days after fully charged .

Product Material: Alloy +temped glass

Products Size : 168MM*132MM*48MM

Features:

- * Modern Rotatable Design
- * Easy installation , IP55
- * Auto on/off day and night

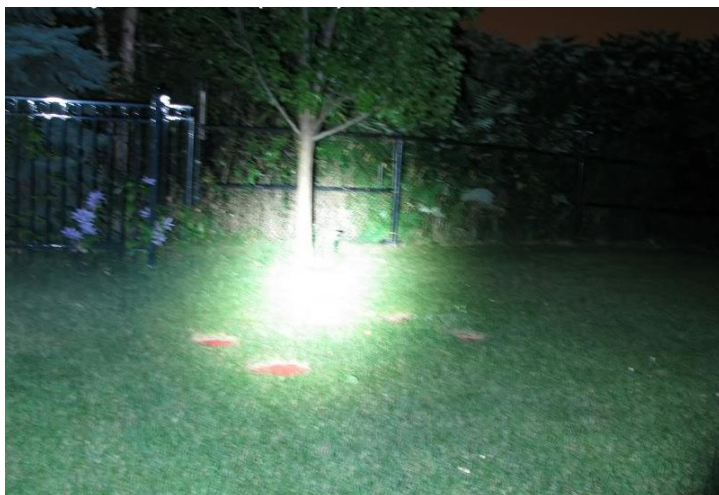

No Wiring No electricity!

SOLAR FOCUS LIGHT

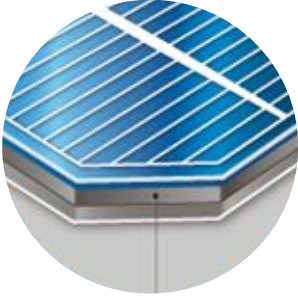

The SensLights Solar flood lights' level of brightness is capable of illuminating an entire back yard and it's attractive appearance will not deter anybody from attaching it to their home. It is designed to be attached to a fixture with a mounting bracket for the flood light and the solar panel. A push button on/off switch allows you to easily switch the flood light off to conserve battery power or if you didn't want the light on all night.

Alternatively if the flood light is left switched on, the light will switch on at sunset and off at sunrise with a good days charge, using the day/night sensor. This can come in handy when going away as the flood light being on gives the impression of someone being home.

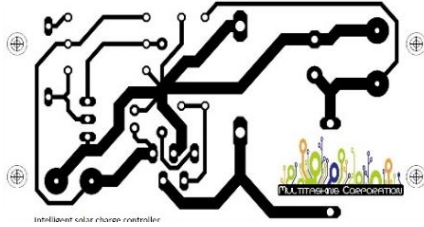

The use of this SensLights solar flood light is not restricted to around the home, it is also commonly used on larger boats and in car parks. Using a top quality lithium ion rechargeable battery and long lasting super bright LED's, this flood light is perfect for installation in areas that are difficult to get to and need a reliable light.
